The Commission has issued a new set of instructions with regard to the First Level Check of EVMs, that will be used in the polls in these States. The first level

checks of such EVMs are being done in the presence of representatives of political parties. A two-stage randomization of EVMs will be made. EVMs will be prepared and set for elections after the contesting candidates are finalized in presence of candidates. At this stage also, candidates or their agents/representatives will be allowed to check and satisfy themselves in every manner about the functionality of the EVMs. After the EVMs in a constituency are prepared for poll by the Returning Officer and the ballot units are fitted with ballot papers, the EVMs will again be randomized to decide the actual polling stations in which they will be ultimately used. The second stage randomization will be done in the presence of General Observers and candidates or their election agents.
